

November 2025 Community Newsletter

America Recycles Day is November 15th

America Recycles Day is on Saturday, November 15th! It’s a great reminder of the importance of recycling and that recycling right makes a real difference! Recycling saves resources, keeps recoverable materials out of the landfill, and helps our community stay clean.

Not sure what belongs in your recycle can? Check out the “How to Recycle” page on our website: wfwrdutah.gov/how-recycle.

Have items that don’t belong in the recycle can? Use our Recycle Right tool to find other recycling and drop-off options. Every little bit helps! Let’s make every day America Recycles Day!

E-billing and Monthly Billing

Starting January 2026, we’re switching from quarterly to monthly billing! This means smaller, easier to manage bills and a simpler way to track your waste and recycling services.

What’s the easiest way to stay on top of your new monthly bills? **Sign up for Paperless E-billing!** Your statement goes straight to your inbox, making it fast, convenient, and a great way to make the transition to monthly billing as smooth as possible while saving resources and paper.

Here’s what to expect moving into 2026:

- January 2026 bill: Covers services from October–December 2025.
- February 2026 bill: Your first monthly bill for January services.
- March onward: Bills arrive every month for the previous month’s services.

Planning your budget? Paperless billing makes it simple! Sign up today at wfwrdutah.gov or scan the QR code and make the switch hassle-free!

Scan the QR code below to enroll in e-billing today!

Switching to **e-billing** is the easiest way to manage your new monthly bills and reduce paper waste!

House Bill 107 – Recycling Reporting & Transparency

In response to HB107 requiring political subdivisions to publish information about the collection of recyclable materials, we are happy to share “District Statistics” on our website under the “About” tab.

The chart below includes recycling tonnages collected throughout the District’s service areas from January through September 2025 totaling 12,582 tons!
