<u>Permit Cost Information</u>	Permit Fees	
<p>Many factors determine what the total permit fee will be, such as total square footage, etc. To the right is a list of fees charged for a Multi-Family Dwelling permit. Letters (A, B, C) are noted when the fee is not the same on every permit. These can be figured on page 2.</p> <p>Please be aware that we do NOT collect sewer hook-up fees (see below).</p> <p>Also please know that a soils report from a licensed Geotech Engineer is required at footing.</p> <p>Landscaping is required to be installed per Planning Commission approval.</p> <p><i>However, construction water does NOT include water for landscaping. As soon as landscaping has been installed, the water jumper will be removed and the water meter must be set.</i></p> <p><i>Landscaping for townhomes is followed up by the Engineering Department usually on the last few buildings in a subdivision.</i></p>	Zoning Review Fee	\$ <u>35.00</u>
